- One pair of eyeglasses (lenses and frame)
- Choice of any available frame — from value-priced to designer brands like Oakley®, Ray-Ban® and Vogue®
- Prescription sunglasses
- Contact lenses

Choices galore

After enrolling, you get a welcome packet in the mail. You'll get your member ID card, insurance plan information and a list of local vision providers.

This includes neighborhood eye doctors, as well as your favorite chains, such as:

- LensCrafters®
- Target Optical®
- Pearle VisionSM
- JCPenney Optical®
- Sears Optical®

Find network providers online at aetnavision.com or on our mobile app. You can also visit any licensed eye care provider outside the network. But if you do, you may pay more out of pocket. And you may have to file your own claims.

Easy-to-use online retailers

You can shop for contact lenses or glasses online at retailers in the network:

- ContactsDirect, at contactsdirect.com
- Glasses.com, at glasses.com
- LensCrafters, at lenscrafterscontacts.com

Your vision benefits are automatically applied when you check out.

Save like a pro

With network eye care providers, you can find discounts on products and services that may not be covered under your plan, including:

- Up to 15 percent off retail price or 5 percent off promotional price for LASIK laser eye surgery or photorefractive keratectomy from U.S. Laser Network
- Up to 40 percent off extra pairs of eyeglasses and sunglasses
- Lens options like antireflective coatings
- Up to 20 percent off non-covered items, including nonprescription sunglasses
- Digital eye imaging — a diagnostic tool to spot eye diseases

Plus: If you have a flexible spending account or a health savings account, you can use that toward your out-of-pocket expenses.

Features that fit your busy lifestyle

Flexibility: You can have your eye exam and buy your eyewear at different places.

Great hours: Many locations are open seven days a week, as well as evenings. And many accept walk-ins.

Convenience: Shop with vision offices or retailers, or go online.

Better vision, better health

Your vision insurance plan is good for your overall health. Routine eye exams can spot vision problems like glaucoma. But exams also can detect health conditions like high blood pressure and diabetes — even before symptoms appear.
